DETAILED ACTION

Reasons For Allowance

Claims 1-27 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 recites a structure for use in interconnections on an electronic device wherein the structure includes the specific structural limitations of providing that the recesses filled with continuous electroplated metal from a bath containing additives, wherein the additives cause the plating rate to increase with depth along the sidewalls of a recess and avoid seam and/or void formation in the recesses. The abovementioned structural limitations are neither anticipated by nor obvious over the prior art of record. Likewise, claims 2-27 are also allowable as being dependent upon allowable claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Relevant Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 2826

Erb, Nee, Reid, Lee and Gross each disclose semiconductor devices fabricated with copper.
